

Our Continuing Commitment...

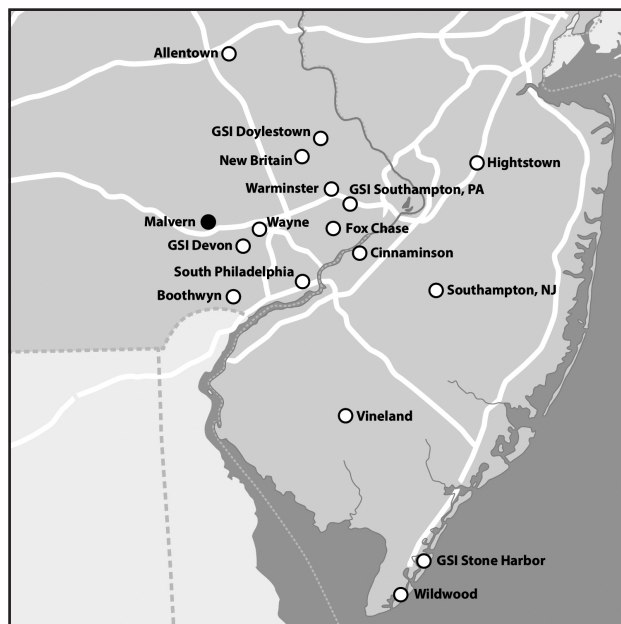

Grove Supply, Inc. opened its doors in 1948 to service the Bucks-Mont area as a supplier to the heating, plumbing, industrial and institutional markets. Today, we are the Delaware Valley's largest independently owned plumbing and heating supply house with seventeen locations in the area.

Over these years, it has been our privilege and pleasure to be of service to plumbers, heating and cooling contractors, builders, well pump installers, home renovators, oil dealers, manufacturers, schools, hospitals, churches, apartment complexes, governmental agencies, armed services, research and development, operations horticultural growers, transportation specialties, and many more.

Our exposure to a broad and diverse group of clients has gained us a reputation for having the experience and ability to supply materials and equipment at an exceptionally high service level combined with competitive prices.

We pride ourselves in the fact that we are small enough to give your requirements personal attention, but large enough to have the financial strength required to fill your needs at any level.

We would welcome an opportunity to display first hand that we have earned our motto: "Customer Satisfaction."
